A decision support system (DSS) is an information system that supports business or organizational decision-making activities. DSSs serve the management, operations and planning levels of an organization (usually mid and higher management) and help people make decisions about problems that may be rapidly changing and not easily specified in advance—i.e. unstructured and semi-structured ...

1. Introduction. There is a renewed battle of ideas about the best way to tackle spatial inequalities within nations and regions (Barca, 2009, McCann, 2016, OECD, 2009, World Bank, 2009). The contest between different approaches has been spurred by heightened competition for investment in a context of economic volatility and geopolitical uncertainty.
