ALGORITHM AND FLOW CHART 1.1 Introduction -

Some algorithms are represented best in flow charts to help any user to better understand each step involved in the program or algorithm. Algorithms are computer programs designed for specific use and application. The basics of these computer programs are created first by representation of flow charts.

Algorithm and Flow Chart 2.1 ALGORITHM 2.1.1 Introduction An algorithm is a set of instructions, sometimes called a procedure or a function that is used to perform a certain task. This can be a simple process, such as adding two numbers together, or a complex function, such as adding effects to an image. For example, in order to sharpen a
