Swarm and Evolutionary Computation | ScienceDirect.com

Introduction: To tackle complex real world problems, scientists have been looking into natural processes and creatures - both as model and metaphor -...

Swarm and Evolutionary Computation - Journal - Elsevier

The first annual "Humies" competition was held at the 2004 Genetic and Evolutionary Computation Conference (GECCO-2004) in Seattle. Entries were solicited for cash awards for human-competitive results that were produced by any form of genetic and evolutionary computation and that were published in the open literature during previous year.

Human-Competitive Awards 2004 - Present

Conferences about Genetic Programming (GP) and Genetic and Evolutionary Computation (GEC) Annual 2005 Genetic and Evolutionary Computation (GECCO) conference to be held on June 25-29, 2005 (Saturday - Wednesday) in Washington DC. GECCO is the largest conference in the field of genetic and evolutionary computation.

genetic-programming.com-Home-Page

Early work. Human-based computation (apart from the historical meaning of "computer") research has its origins in the early work on interactive evolutionary computation (EC). The idea behind interactive evolutionary algorithms is due to Richard Dawkins. In the Biomorphs software accompanying his book *The Blind Watchmaker* (Dawkins, 1986) the preference of a human experimenter is used to guide ...

Human-based computation - Wikipedia

Evolutionary biology is the subfield of biology that studies the evolutionary processes that produced the diversity of life on Earth, starting from a single common ancestor. These processes include natural selection, common descent, and speciation. The discipline emerged through what Julian Huxley called the modern synthesis (of the 1930s) of understanding from several previously unrelated ...

Evolutionary biology - Wikipedia

A multiobjective optimization problem involves several conflicting objectives and has a set of Pareto optimal solutions. By evolving a population of solutions, multiobjective evolutionary algorithms (MOEAs) are able to approximate the Pareto optimal set in a single run.

Multiobjective evolutionary algorithms: A survey of the

For example, our scientists and customers use the Parabon Essemblix Drug Development Platform to design and produce potent new compounds for the treatment of cancer, infectious disease, and biodefense applications.

Parabon NanoLabs: Engineering DNA for Next-Generation

Evolutionary Algorithms for MATLAB (incl. Genetic Algorithms and Genetic Programming) Evolutionary Algorithms are the common term used for algorithms based on principles of nature (evolution, genetic).
