Rosie Ruiz (born 1953) is a Cuban American runner who was declared the winner in the female category for the 84th Boston Marathon in 1980, only to have her title stripped eight days after the race when it was discovered that she had not run the entire course. She is believed to have jumped onto the course about a half-mile before the finish.

This guide stresses the systematic causal analysis of gender inequality. The analytical questions raised and the readings listed consider why and how gender inequality arises, varies across and within societies, persists over generations, produces conformity by individuals and institutions, resists change, and sometimes changes dramatically.

What Causes Gender Inequality? - Analytical Strategies
