The Burns Archive is the world's largest private collection of early medical photography and historic photographs, housing over one million photographs. While it primarily contains images related to medical practises, it is also famous for photographs depicting 'the darker side of life'. Other themes prevalent throughout the collection involve death, crime, racism, and war.

Stock photography is the supply of photographs, which are often licensed for specific uses. The stock photo industry, which began to gain hold in the 1920s, has established models including traditional macrostock photography, midstock photography, and microstock photography. Conventional stock agencies charge from several hundred to several thousand United States dollars per image, while ...
