Lesson Planning For Cross Discipline Teaching

Death, divorce, marriage, retirement, career changes, empty-nesting, moving...Whether we instigate a stressful event or feel like the victim of one, navigating the transitional waters of change is hard.

What is Love? - Project Positive Change

The decibel is commonly used in acoustics as a unit of sound pressure level. The reference pressure for sound in air is set at the typical threshold of perception of an average human and there are common comparisons used to illustrate different levels of sound pressure. Sound pressure is a field quantity, therefore the field version of the unit definition is used:
