Developmental disability is a diverse group of chronic conditions that are due to mental or physical impairments that arise before adulthood. Developmental disabilities cause individuals living with them many difficulties in certain areas of life, especially in "language, mobility, learning, self-help, and independent living". Developmental disabilities can be detected early on and persist ...

Several of the above mentioned chemicals have been reported in microplastics found in environmental samples (Fries et al., 2013) but we question the risks they pose to human health. The relatively low rate of microplastic exposure to humans, from so-far identified sources, render this pathway a relatively insignificant exposure route for these chemicals compared to other exposure pathways.
