education training for the pdf

Training is a way to develop specific skills, whereas education is a typical system of learning. Training is completely based on practical application, which is just opposite in the case of education that involves theoretical orientation.

Difference Between Training and Education (with Comparison)

In today's school systems, the line between education and training can be very fine indeed. Especially at the collegiate level, many areas of mental training are being passed off as education. Programming, for instance, requires a difficult and specialized skill set and needs years of training.

Difference Between Education and Training | Difference

So the difference between education (learning) and training is not as negligible or irrelevant as may seem. Learning vs. Training Education is all about learning the theory.
