Electromagnetic Wave Problems (4) Solution in detail below: First we need to consider what would be the best equation to use. Obviously, the equation involving energy change, Plank's constant, and frequency is the best way to go. Next, we need to figure out what we are solving for.

Electromagnetism for Electronic Engineers Examples 6 Preface Preface This is a companion volume to
Electromagnetism for Electronic Engineers (3rd edn.) (Ventus, 2009). It contains the worked examples,
together with worked solutions to the end of chapter examples, which featured in the previous edition of the
book.

Classical Electrodynamics is one of the most beautiful things in the world. Four simple vector equations (or
one tensor equation and an associated dual) describe the unified electromagnetic field and more or less
directly
