

encyclopedia of human relationships pdf

In social science, a social relation or social interaction is any relationship between two or more individuals. Social relations derived from individual agency form the basis of social structure and the basic object for analysis by social scientists. Fundamental inquiries into the nature of social relations feature in the work of sociologists such as Max Weber in his theory of social action.

Data visualization is the graphical display of abstract information for two purposes: sense-making (also called data analysis) and communication. Important stories live in our data and data visualization is a powerful means to discover and understand these stories, and then to present them to others ...

Data Visualization for Human Perception | The Encyclopedia

Visual aesthetics, as discussed in this chapter, refers to the beauty or the pleasing appearance of things. We discuss the importance of visual aesthetics in the context of interactive systems and products, present how it has been studied in the field of Human-Computer Interaction (HCI), and suggest directions for future work in this field.

Michel Foucault (1926–1984) was a French historian and philosopher, associated with the structuralist and post-structuralist movements. He has had strong influence not only (or even primarily) in philosophy but also in a wide range of humanistic and social scientific disciplines.

Michel Foucault (Stanford Encyclopedia of Philosophy)

Attachment is the emotional bond between the child and the parent. To fully grasp the significance of this bond, it is important to understand the different types of attachment, how they develop, and the impact of this bond on young children's development.

Attachment: Impact through young adulthood | Encyclopedia

Virtue ethics is currently one of three major approaches in normative ethics. It may, initially, be identified as the one that emphasizes the virtues, or moral character, in contrast to the approach that emphasizes duties or rules (deontology) or that emphasizes the consequences of actions (consequentialism).
