The United States one hundred-dollar bill (\$100) is a denomination of United States currency. The first United States Note with this value was issued in 1862 and the Federal Reserve Note version was launched in 1914, alongside other denominations. Statesman, inventor, diplomat, and American founding father Benjamin Franklin has been featured on the obverse of the bill since 1914.

Terminology. In gretl parlance, a database is a (usually large) collection of series that may be of mixed frequencies and observation ranges. The data are stored in binary format, as single-precision "floats". You access such files via gretl's File/Databases menu. From there you can import selected series into gretl's workspace.
