[Coursera] Machine Learning (Stanford University) (ml)

Stanford Machine Learning. The following notes represent a complete, stand alone interpretation of Stanford's machine learning course presented by Professor Andrew Ng and originally posted on the ml-class.org website during the fall 2011 semester. The topics covered are shown below, although for a more detailed summary see lecture 19.

coursera-ml. All completed coding assignments and various PDF lecture and wiki notes from Coursera ML course taught by Andrew Ng. Worked through it in my spare time for the fun of it - it's a really accessible treatment of most of the basic machine learning concepts and algorithms.

GitHub - worldveil/coursera-ml: Andrew Ng's Coursera ML

One of the key achievement of Andrew Ng's Coursera Machine Learning course is making typically math-heavy subjects into something digestible to people who are new to programming and advanced math. You actually learn the minimum level of math and coding skills through this class to do the assignments.

What is the best textbook equivalent to Andrew Ng's

Intro to Machine Learning. Machine Learning is a first-class ticket to the most exciting careers in data analysis today. As data sources proliferate along with the computing power to process them, going straight to

the data is one of the most straightforward ways to quickly gain insights and make predictions.
