Trend Functions You can control a trend's operation by using the trend functions. Vijeo Citect has standard trend pages, so you would not normally use these low-level functions unless you want to define your own trend displays. You can control the movement of the trend cursor, trend scaling, and the definition of trend attributes (such as the trend starting time and sampling period).

Trend Functions - Citect

Citect was a software development company specialising in the Automation and Control industry. The main software products developed by Citect included CitectSCADA, CitectSCADA Reports, and Ampla.
