4 CHAPTER 1 The Basics of Reaction Kinetics for Chemical Reaction Engineering The next task in describing a chemically reacting system is the identification of the reactions and their arrangement in a network.

## The Basics of Reaction Kinetics for Chemical Reaction

What is rate of reaction and how does it apply to chemical reactions? In a chemical reaction, how quickly or slowly reactants turn into products is called the rate of reaction. A reaction that takes a long time has a low reaction rate. A reaction that occurs quickly has a high reaction rate. A rate describes how quickly or slowly a change occurs.
