1. Introduction. This paper documents the basic concepts relating to big data. It attempts to consolidate the hitherto fragmented discourse on what constitutes big data, what metrics define the size and other characteristics of big data, and what tools and technologies exist to harness the potential of big data.

Climate plan for Germany and Europe: Economists propose CO 2 price reform. A few days ago the UN Environment Agency advocated an international green tax reform - now economists have presented a new concept for a CO 2 price reform in Germany and Europe right before the start of the climate summit in Katowice, Poland. SPIEGEL magazine was reporting on this issue in advance this weekend.
