Scotland was divided into a series of kingdoms in the early Middle Ages, i.e. between the end of Roman authority in southern and central Britain from around 400 CE and the rise of the kingdom of Alba in 900 CE. Of these, the four most important to emerge were the Picts, the Scots of Dál Riata, the Britons of Alt Clut, and the Anglian kingdom of Bernicia.

Early human migrations are the earliest migrations and expansions of archaic and modern humans across continents beginning 2 million years ago with the out of Africa migration of *Homo erectus*. This initial migration was followed by other archaic humans including *H. heidelbergensis*, which lived around 500,000 years ago and was the likely ancestor of both Denisovans and Neanderthals.
