The Hubbert peak theory says that for any given geographical area, from an individual oil-producing region to the planet as a whole, the rate of petroleum production tends to follow a bell-shaped curve. It is one of the primary theories on peak oil. Choosing a particular curve determines a point of maximum production based on discovery rates, production rates and cumulative production.

Orthodox Marxism is the body of Marxist thought that emerged after the death of Karl Marx (1818–1883) and which became the official philosophy of the socialist movement as represented in the Second International until the First World War in 1914. Orthodox Marxism aims to simplify, codify and systematize Marxist method and theory by clarifying the perceived ambiguities and contradictions of ...
