

the fate of earth pdf

The Fates were a common motif in European polytheism, most frequently represented as a group of three mythological goddesses (although their number differed in certain eras and cultures). They were often depicted as weavers of a tapestry on a loom, with the tapestry dictating the destinies of men. The primary instances include: Moirai, the Fates of Greek mythology who control the Threads of Fate

The term "tipping point" commonly refers to a critical threshold at which a tiny perturbation can qualitatively alter the state or development of a system. Here we introduce the term "tipping element" to describe large-scale components of the Earth system that may pass a tipping point. We critically evaluate potential policy-relevant tipping elements in the climate system under ...
