The Portable Document Format (PDF) is a file format developed by Adobe in the 1990s to present documents, including text formatting and images, in a manner independent of application software, hardware, and operating systems. Based on the PostScript language, each PDF file encapsulates a complete description of a fixed-layout flat document, including the text, fonts, vector graphics, raster ...

"Fortune favours the bold", "Fortune favours the brave" and "Fortune favours the strong" are common translations of a Latin proverb. The slogan has been used historically in the military in the Anglosphere, and it is used up to the present in the US Army and on the coats of arms of individual families and clans.

I know this question is old but I thought I would share this as I could not find anything similar. I wanted to create my views/models as normal using Razor and have them rendered as Pdfs.. This way I had control over the pdf presentation using standard html output rather than figuring out how to layout the document using iTextSharp.

Looking for bold fonts? This article has a great collection of free thick fonts that you can use for your headlines. A few weeks ago I was searching for a headline font for one of my websites and I went through a lot of fonts galleries to get a free font that looks bold, cool and serious, without having weird shapes.
