Instead it opens a SAVE dialog box requesting me to save to my harddrive. I am not sure what has happened and am trying to find someone who might know what is going on? Recently when I click on a .pdf file link I am no longer able to open the file in a adobe reader either within a FIREFOX webpage or open it using the full adobe program.

Clicking a .pdf link does not open .pdf file, it opens a

This paper reports the results of two field experiments that investigate the effect of using question headlines to enhance readership in computer-mediated communication. The results from both experiments suggest that question headlines are significantly more effective than declarative headlines in generating readership. The results from the second experiment also indicate that question ...
